

Here's a nice simple puzzle, just to help you get the idea of how the game works. Drive the red car off the top of the board. Other cars are not allowed to leave the board.

This puzzle should require 8 moves

Now let's make it more challenging, by adding one extra car.

This puzzle should require 17 moves

Another one that's not too hard, just to give you some practice. Drive the red car off the top of the board. Other cars are not allowed to leave the board.

This puzzle should require 11 moves

Adding a few cars makes it a little more difficult

This puzzle should require 18 moves

This would be a breeze if not for the long bronze car!

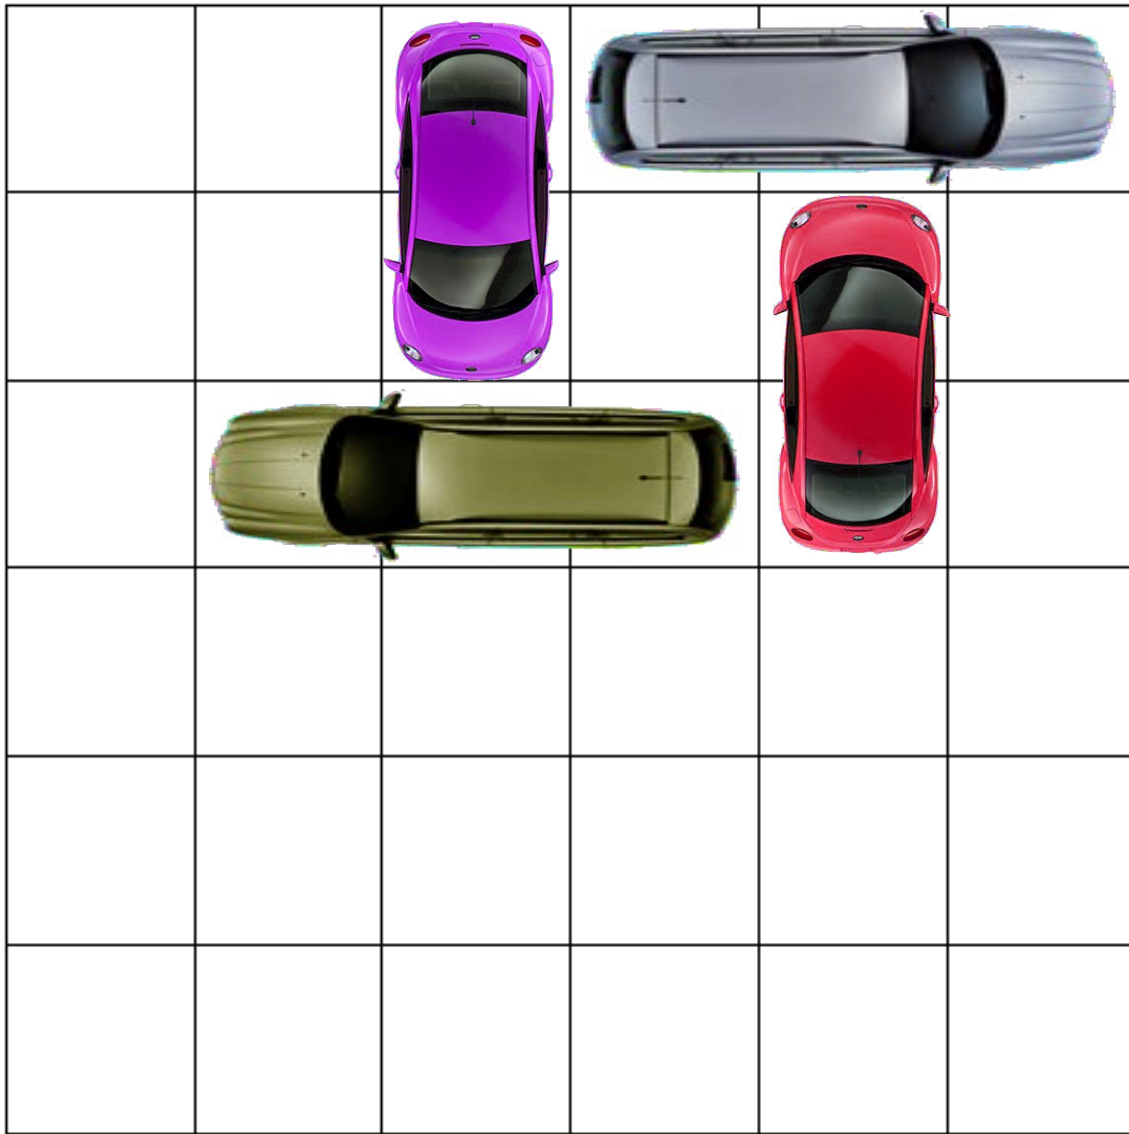

This puzzle should require 19 moves

Let's make it just a little bit more challenging...

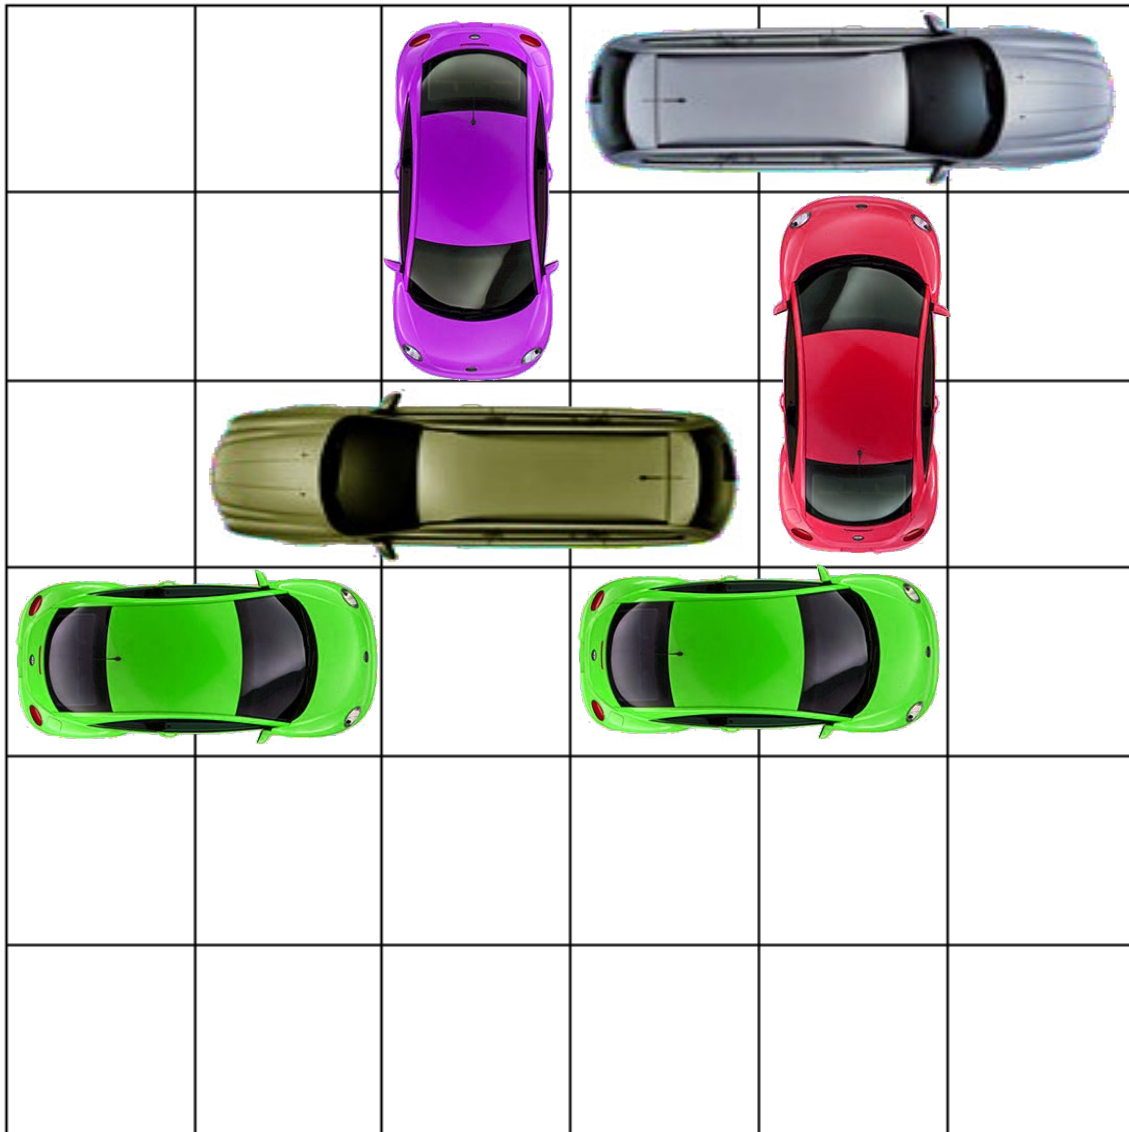

This puzzle should require 23 moves

This one looks much simpler than it really is!

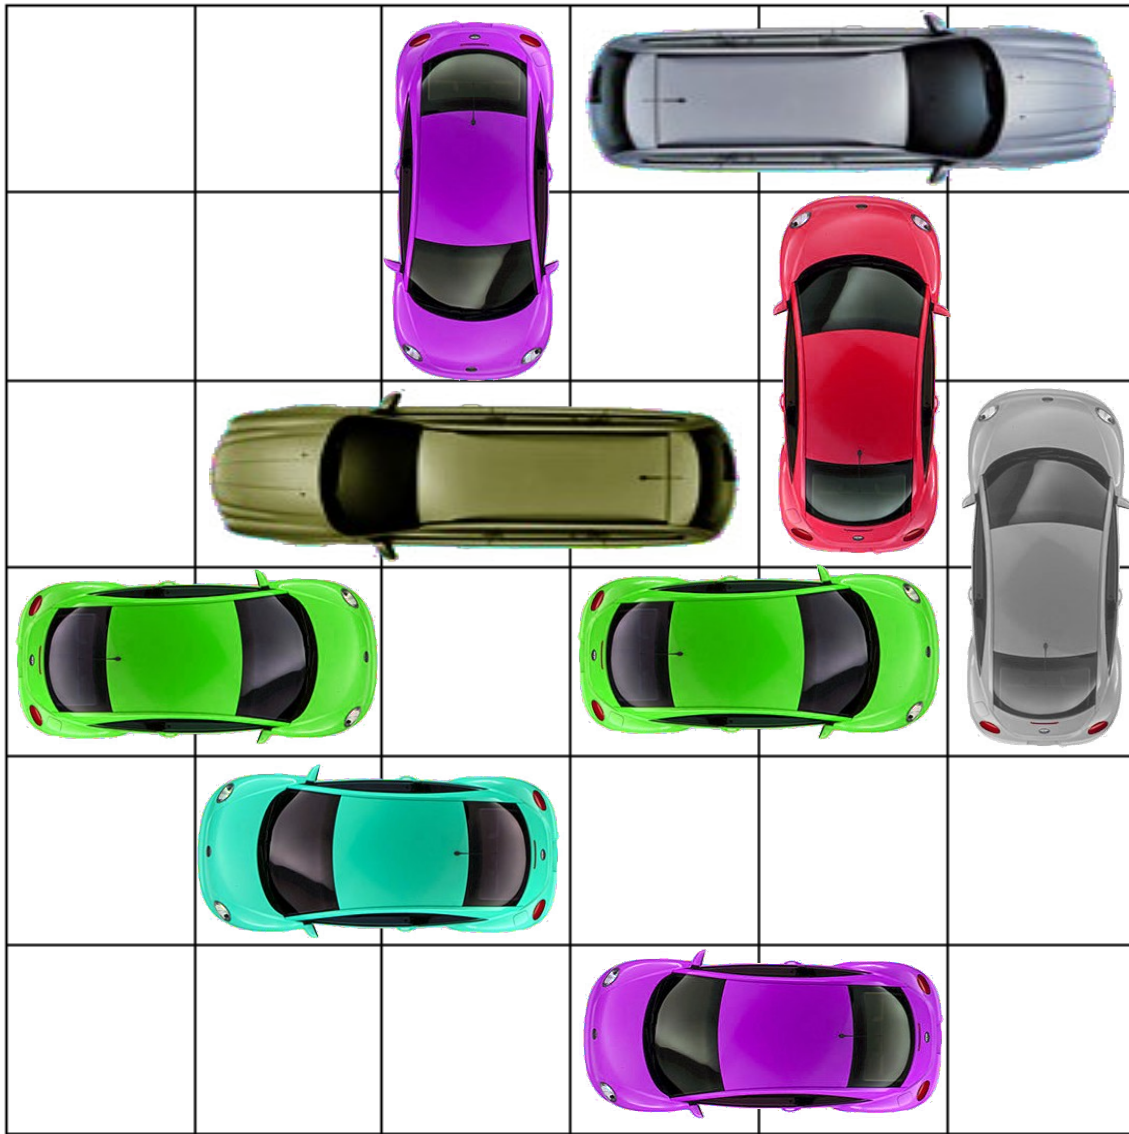

This puzzle should require 15 moves

Especially as the car park begins to get crowded...

This puzzle should require 21 moves

...and more crowded...

This puzzle should require 26 moves

...and still more crowded!

This puzzle should require 37 moves

Here's a real tough one. Just for those who love a real challenge, I've given it straight. No leading by the hand this time. Go for it!

This puzzle should require 40 moves

Phew! That was tough! Time for a nice simple relaxing one, I think. Hopefully, the next puzzle is just what the doctor ordered. It might look messy, but it's really quite straightforward.

This puzzle should require 17 moves
